

Bronze Service Package

Hand Held Products Bronze: for guaranteed turnaround at a minimal cost. For operations that require more than the standard warranty, Bronze has you covered with a known turnaround time and continued coverage on manufacturing and parts defects. Bronze offers a 5-day in depot turnaround, paid return shipping, repair reports with all returns, and covers mandatory engineering changes. When fast, consistent repair is what you need – consider Bronze.

The Hand Held Products Bronze Service Package offers the following features:

- *Guaranteed 5-day turnaround time*
- *Service report for each repair*
- *Installation of mandatory engineering changes*
- *Return shipping paid*
- *Discount on out-of-scope repairs*

SERVICE³

Introducing Service Cubed, the new 3-year worry-free service option from Hand Held Products!

- Enhanced 3-year service coverage for silver or bronze service packages
- Comprehensive coverage included at no additional charge – with savings of up to 40% per year over the standard one year service package
- Available at the upfront purchase of any handheld imager or mobile computer

Visit www.handheld.com/service3 or contact your Hand Held Products representative today.

Turnaround Time

Each service package level comes with its own turnaround time. For standard warranty repairs turnaround times are not guaranteed. For Hand Held Products Bronze, Silver, and Gold Packages all turnaround times are guaranteed. By signing up for one of the packages, you know in advance the downtime of your unit(s) sent in for repair. Turnaround time begins from the moment the unit arrives at the Hand Held Products repair center to the time it is sent back to you or your customer.

Installation of Mandatory Engineering Changes

Each repair includes an upgrade to the latest firmware version as well as relevant hardware modifications if needed, unless specified differently when submitting the RMA.

Service Report on Repaired Products

Each unit sent in for repair will be returned with a service report showing the cause of the problem and a list of action(s) the repair technician has taken. The report also includes the RMA number, serial number, and date of repair.

Hand Held Products Custom Configuration Loaded After Repair

If units were purchased with a custom Hand Held Products software configuration, your configuration will be reloaded on the unit after repair, unless otherwise noted when the RMA is requested.

Software Patch Access

All maintenance contracts include free access to the Hand Held Products Software Patch area of the Hand Held Products Partner website. Use it to download the latest firmware and software updates at your convenience.

Hand Held Products Global Services
